

# BioClean-D™ Sterile Sleeve Covers DONNING PROCEDURE

**1** Open packaging using the EasyTear™ edge.

**2** Remove one sleeve cover from packaging. The sleeve cover is folded to ensure you only touch the inside surface.

**3** Holding inside surface, insert arm and push hand through opening.

**4** Unfold and pull sleeve cover up over arm until all of sleeve cover is unfolded.

**5** Repeat steps 3 & 4 for other arm.
